

## Managed Fill Waste Acceptance Declaration

Contractor:

---

Type of Waste:

---

Origin of Waste (Street Address):

---

Circle one

Is waste listed acceptable as per definition in Table 1?	Yes	No
--	-----	----

---

Is quantity from site more than 400m3 (If yes, please submit full site investigation report with this declaration)	Yes	No
--	-----	----

---

Is waste contamination testing available at the site?	Yes	No
---	-----	----

---

Does testing comply with maximum acceptable limits in table 1? (If no testing done then N/A)	Yes	No
---	-----	----

---

Is this a residential or commercial address? (if commercial please state full address)	Residential	Commercial
--	-------------	------------

---

Full Commercial Address:

---

Has waste come from a Hazardous Activities & Industries List (HAIL) site?	Yes	No
---	-----	----

---

Has waste been rejected from clean fill, managed fill or landfill?	Yes	No
--	-----	----

---

Is further testing required?	Yes	No
------------------------------	-----	----

---

I, the Contractor, verify the information provided true and accurate. I have read and understand the terms and conditions below,

---

Name:

---

Signed:

---

Date:

---

Terms and Conditions: GVR reserves the right to remove and dispose of non-compliant material at the contractor's expense. Upon supply of a removal notice, the contractor shall have 2 working days to remove waste from GVR or from its nominated managed fill disposal facility.

	Potassium	3,660***	-
	Sulphur	2,300***	-
	Tin (Sn)	4***	-
Vanadium	370***	-	

Table 1 Waste Acceptance Criteria

Managed fills accept mostly clean fill material and some lightly contaminated material that when buried will have little to no adverse effect on people or the environment; and includes virgin materials such as clay, soil and rock, and other inert materials such as concrete or brick that are free of:

- Combustible, putrescible, degradable or leachable components.
- Asbestos, Hazardous substances.
- Products or materials derived from hazardous waste treatment, hazardous waste stabilization or Hazardous waste disposal practices.
- Materials that may present a risk to human health.
- Liquid waste.

materials imported onto the site must not be from a known contaminated or high-risk site – see examples below:

- Soil from a petrol station.
- Soil from a known contaminated site.
- Materials that may contain harmful Coal Tars
- Soil from a timber treatment plant
- Materials classified as contaminated.
- Soils and materials from industrial farming operations.

Note: Contractors delivering material that does not meet the criteria outlined will be liable for any remediation / disposal costs which are borne by Downer NZ Ltd trading as Green Vision Recycling. All information supplied to Green Vision Recycling must be true and correct.
